

TEMPORARY ROAD RESTRICTIONS/CLOSURE **March 25, 29 and 30** **(section of Whistler Way)**

VANOC wishes to inform the community of temporary restrictions and closures for vehicles and pedestrians of a section of Whistler Way – from just past the entrance to the Aava Hotel to the entrance to the underground parkade at the Cornerstone (RBC) Building

These temporary traffic restrictions are required to ensure the safe and efficient removal of the cable bridge, tower and generators at the Whistler Conference Centre:

- For the safety of the installation and work crew, this work must be completed during daylight hours.
- Safety for all is a priority, therefore, VANOC will operate a comprehensive traffic and signage management plan during the temporary restrictions and closures.
- Access from the south entrance off Highway 99 will remain open through to the entrance to the Aava Hotel.
- Whistler Way access off of Village Gate Boulevard will be maintained, allowing access to the Cornerstone/RBC building underground parking and the Sunshine Place Loop..

Restrictions and closures include:

- **Thursday March 25** - full closure to vehicles and pedestrians between **10:00 am and 1:00 pm**
 - *Whistler Way will operate as two sections of dead-end street
- **Monday March 29** - full closure to vehicles and pedestrians between **8:00 am and 12:00 noon**
 - *Whistler Way will operate as two sections of dead-end street
- **Tuesday March 30** - intermittent alternating vehicle traffic between **7:00 am and 6:00 pm**

VANOC appreciates the cooperation of the community as we complete the removal operational infrastructure for the 2010 Olympic and Paralympic Winter Games.

Thank you for your patience and support.
